PETBot

Premium Bottle Manufacturing

Company Brochure 2026

ISO Certified • Global Supply Chain • State-of-the-Art Technology • Custom Solutions • 100% Recyclable • Food-Grade Certified

About PETBot

PETBot is a leading manufacturer of premium PET, PP, and PC bottles, serving diverse industries worldwide with state-of-the-art manufacturing solutions. With years of expertise and cutting-edge technology, we deliver exceptional quality bottles for packaged drinking water, pharmaceuticals, beverages, personal care, and more.

Our Mission

To provide innovative, sustainable, and high-quality bottle manufacturing solutions that meet the evolving needs of our clients while maintaining environmental responsibility and excellence in every product we create.

Our Vision

To be the global leader in bottle manufacturing, recognized for our commitment to quality, innovation, and sustainability, setting new standards in the packaging industry.

Products & Services

Product Category	Description	Industries
PET Bottles	Clear, durable bottles 100ml - 5L capacity	Water, Beverages, Juices
PP Bottles	Heat-resistant bottles Custom sizes available	Pharmaceuticals, Chemicals
PC Bottles	Impact-resistant Premium quality	Liquor, Specialty Beverages
Jars & Containers	Wide-mouth designs Various capacities	Food, Cosmetics, Storage

Industry Applications

Our bottles serve diverse industries with specialized requirements:

- Packaged Drinking Water – Food-grade PET bottles ensuring safe and pure hydration
- Pharmaceuticals – Medical-grade bottles meeting stringent quality and safety standards
- Household Chemicals – Durable containers resistant to various chemical compositions
- Edible Oils – Premium bottles designed for oil storage and preservation
- Liquor & Beverages – Elegant bottles for premium alcoholic and non-alcoholic drinks
- Personal Care – Stylish bottles for shampoos, lotions, and beauty products
- Agriculture – Heavy-duty bottles for pesticides and fertilizers
- Juices & Smoothies – Crystal-clear bottles preserving freshness and visual appeal

Manufacturing Excellence

Advanced PET Bottle Plant

Latest injection stretch blow molding technology with high-speed production lines ensuring consistent quality and output.

In-House Quality Lab

Fully equipped laboratory with rigorous testing protocols ensuring food-grade certification compliance.

Eco-Friendly Processes

Energy-efficient machinery and comprehensive waste recycling systems promoting sustainable manufacturing.

Quality Standards & Certifications

- ISO 9001:2015 Certified Manufacturing
- Food-Grade Material Certification (FDA Compliant)
- International Quality Management Systems
- Environmental Compliance & Green Certifications
- Rigorous In-Process & Final Quality Checks

Why Choose PETBot?

Advanced Technology	State-of-the-art manufacturing equipment ensuring precision and consistency
Custom Solutions	Fully customizable bottles tailored to your brand specifications
Quality Assurance	Rigorous testing protocols and international certifications
Sustainability	100% recyclable materials and eco-friendly manufacturing processes
Competitive Pricing	Cost-effective solutions without compromising on quality
Timely Delivery	Efficient logistics and reliable supply chain management
Expert Support	Dedicated customer service and technical assistance
Global Reach	Serving industries worldwide with proven track record

Technical Specifications

Specification	Details
Material Types	PET (Polyethylene Terephthalate), PP (Polypropylene), PC (Polycarbonate)
Capacity Range	50ml to 5000ml (custom sizes available)
Neck Finishes	PCO, ROPP, Crown, Custom specifications
Colors	Clear, Amber, Blue, Green, Custom Pantone matching
Minimum Order	Starting from 5,000 units (varies by product type)
Lead Time	15-30 days (standard orders), Custom molds: Additional 30-45 days
Quality Control	In-line inspection, Laboratory testing, 100% leak testing
